

GOALS AND FUTURE VISION FOR THE WAI` ANAE COAST

"COUNTRY FOREVER"

I feel the biggest issue facing the Wai` anae Coast has been best articulated by community leader *Eric Enos*: the need to be in control of our own destiny, for example, in the areas of development, land use, and resource-allocation. I like what is

happening in areas like the North Shore with land trusts for the public interest.

Here in Wai` anae we have begun to do the same, with MA` O Farm leveraging over \$700,000 in Legacy Lands funds to purchase 11 acres in Lualualei Valley. I want to continue this trend, as well as address many of our community's pressing needs.

TRAFFIC

-- **Turns Lanes & Contraflow:**

complete turn and contraflow lanes at Haleakala and Nanakuli Avenues

-- **2nd Access:** push for completion of the WCEAR (Wai`anae Coast Emergency Access Road), and explore alternate route to the Wai`anae Coast which does not disrupt agriculture lands or cultural sites, eg, the "over the mountain" route currently being considered by OMPO (Oahu Metropolitan Planning Organization)

-- **"People's Path":** continue to organize work days and seek funding via Safe Routes to School, Rails to Trails, and other private and government sources to extend the state's planned bike path that ends at Lualualei Naval Road further along the Coast

HOUSING

*"I know Maile is committed to addressing our affordable housing and homeless crisis." -**Elsie Foster** of Foster Realty*

HAWAIIAN

-- Ceded & Public Land

Preservation: continue to oppose the state's ability to sell and exchange public and ceded land via resolution (e.g., HCR21-26, HCR32-34, HCR36, and HCR320 from 2010), and push for a moratorium on such sales/exchanges so that a ceded lands inventory can be completed, and to preserve these lands for future generations.

-- **E Ala Voyaging Canoe:** build an ocean education center and halau on the Wai`anae Coast for the E Ala canoe
